- Thursday, September 25th-Non-Uniform Student Assembly

A Note From Miss Fisher

What a great start to the school year!! We worked on building community, practiced school procedures, and became "real-life" first graders! Your kiddos have been a true pleasure to work with thus far! I am so excited for what is to come and I look forward to working with you and your families

A Peek At What We Are Learning

Reading	We will continue to develop our reading skills, practice reading strategies, and build our reading stamina. Please continue to read with your child at home and practice Fry Sight Words!
Writing	We will continue to practice our handwriting and will be writing in our journals. We will also begin using our handwriting books.
Math	We will take our initial math assessments this week. There is no need to prepare. It's just a way of giving me an idea of where the kids left off in kindergarten. This would be a great time to begin practicing basic addition math facts (0-10) at home.
Science	We will begin our science explorations with some fun candy experiments!
Religion	We will be introduced to our religion text. We will also discuss the importance of being kind and learn different ways to pray.
